

# Collaborate Tool

To enable students to access Collaborate, you must add the tool to a content area.

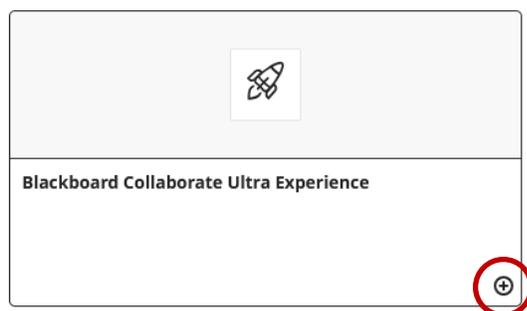

1. Select the **plus sign** under the Course Content, and then select **Content Market**.

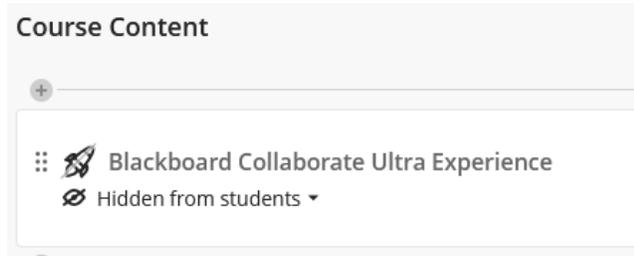

2. Scroll until you see the **Blackboard Collaborate Ultra Experience** icon.

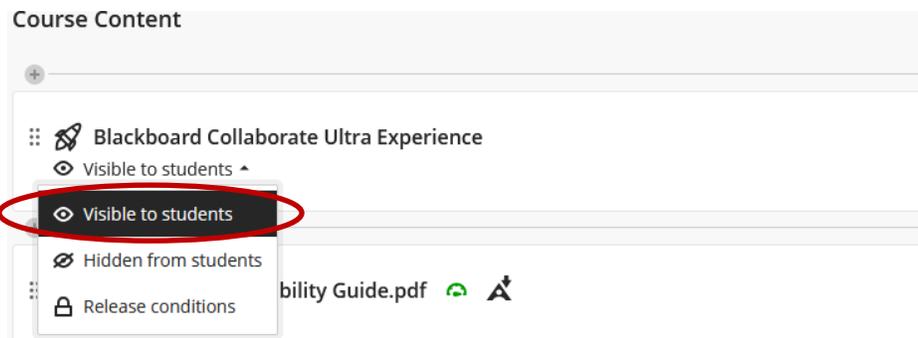

3. Select the **plus sign** at the bottom right-hand corner.

4. Blackboard Collaborate has now been added to your course. You may now place it where you need it in your course.

5. The instructor will need to create a session for students to join. Be sure to make it **Visible to students** when ready.
