Decipher Your Course ID

On the Courses page in Blackboard, you will see each of your courses identified by both course ID and course title/name.

The course ID includes not only the alphanumeric of the course, but also the course start date and a 6-digit ID number you can use to identify a course. For example, below is an ACNT1303 class that starts on 6/3/24:

ACNT1303.20240603.654624

Alphanumeric	Start Date (yyyymmdd)	Course ID

Use the 6-digit ID number to find out more about a class on our Online Course Schedule. Select the **start date** from the drop-down menu, then select **View**:

Show **Online, Blended, & Sync Virtual** courses starting on 06/03/2024* ⌄

The **Course/Section number** gives you more information. A section number starting with TD indicates that the course is online, and a section number starting with TM indicates that the course is blended, with the lecture portion meeting on central campus in Killeen. You can hover over any section number, appearing in bold, to see the location where the class meets. There is also a legend at the bottom of the schedule.

Additional information after the course title specifies if the class is self-paced, synchronous virtual, blended, or a regular non-self-paced online class.

OER courses will be noted with **Yes** in the OER column.

Below is an example of how to determine the delivery method, the start AND end dates, and the section number.

Delivery method	Title	Start Date	End Date	Section No.
